

Environmental Evaluation Checklist for

Proposed Work: _____

Field Office: _____ County: _____

Date: _____

Environmental Factors	Without Project	Short Term	Long Term	Notes
*Important Farmland				
Change in Land Use				
Erosion				
Sedimentation				
Effect on Soil				
Vegetation Alteration (What is change?)				
Air Quality				
*Floodplain				
*Wetlands (includes riparian)				
Water body (streams, lakes reservoirs, ponds)				
Water Quality (include flow regime)				
Water Quality (include receiving waters)				
Fish & Wildlife Habitat				
*Threatened/Rare or Endangered Plants or Animals				
Archaeological or Historic Sites				
Appearance of Landscape				
Other				

1/ Code Items: (+) Beneficial Effect; (0) No Effect; (-) Adverse Affect; (N/A) not applicable.

Without Project = What effects if no project action?

Short Term = Consider this to be the installation period.

Long Term = Consider this to be period through the duration
of intended use, life of project, or to restore pre-storm conditions.

* = Critical Environmental Factor addressed in Federal Regulations.

Potential Controversy:

Social Impact:

Alternatives to Proposed Actions:

Recommendations: (Check One)

- ☐ Continue evaluation for further information
- ☐ Evaluation indicates to proceed with plan of work without any further evaluation.
